Re: The Making of the President 1964

Dear Mr. White:

Can you find time to advise in brief the source of the following information which appears on page 48 of your book?

"On the flight the party learned that there was no conspiracy; learned of the identity of Oswald and his arrest; and the President's mind turned to the duties of consoling the stricken and guiding the quick."

I would much appreciate your providing the source of this information and a designation of the nature of the communication to Air Force 1, i.e. whether it was commercial T.V., government radio or whatever.

~~Please be advised that I have undertaken a very meticulous analysis of Warren Commission data and have written a number of articles on the subject. I have not and will not make any money out of this work. If you will favor me with a reply, I promise that I will not use this information for any commercial purpose.~~

Very truly yours,

Vincent J. Salandria

VJS:J

By government radio - all relay go through a big Signal Corps center into Midwest - and the White House was in contact communication with the plane.
