Dear M.S.:

Thank you for the enclosed petition, but I cannot sign. I am already on record as opposing all wars and have given my pledge accordingly. My stand on this particularly terrible war has been taken in the form of my official indorsement of the Russell War Crimes Tribunal. In the future I will be looking to do more. But, dear friend, I cannot see my way clear to reconciling my public positions already assumed with this petition. They seem very much in conflict.

You and Sylvia will have dinner with us on March 31. It is settled without any future communications. In the absence of further word on this score, the hour will be at 6 P.M. But this is only a suggestion, and feel free to name any hour.

Love,

  
Vince
