

~~Let~~ I did not receive the
Section 767 doc nor the
reports of FBI agents Subert & O'Neill,
nor even a whisper from you of
having discovered them. Jones
Harris and El, however, not
only knew about those docs from
you, they even got copies.

I am at a complete loss at
this stage to understand
your position on Epstein, or
for that matter, on ~~any~~ ^{any} issue. I did
I imagine that in my place you ^{hardly}
might feel puzzled, too, if ^{never} ~~you~~ ^{believed}
for example, I discovered ^{at least the}
absolute proof of LHO's innocence ^{merit of strong}
and gave it to Mark here, ^{without}
mentioning it to you.

I must tell you bluntly Vince that I was
astonished ~~to learn that~~ after what you
have written about Inquest, and said
to me privately about Epton and Jones
Harris — as to their alleged clandestine
affiliations and their hidden motives —
to learn last night that you are
suddenly on such warm terms
with E & Jones that you are
funneling documents to them
documents of the most crucial
importance which you have
obtained from the Archives.

It was my impression, ~~not~~ perhaps
mistakenly, that we agreed during
my visit to Philad June 18 that you
would henceforth automatically order
for me a copy of each document
you yourself purchased.
