

AN OPEN LETTER TO THE HONORABLE EARL WARREN, CHIEF JUSTICE OF THE UNITED STATES SUPREME COURT AND CHAIRMAN OF THE PRESIDENT'S COMMISSION ON THE ASSASSINATION OF PRESIDENT JOHN FITZGERALD KENNEDY

The Warren Report states that a bullet traversed President Kennedy's neck on this path-----> and then struck Governor Connally, inflicting all his wounds.

CE 385  
Sketch by  
medical artist

But the FBI reported on December 9, 1963 and again on January 13, 1964 that the bullet entered some inches below the collar, penetrating only a finger's length, and did not exit from the body. Although FBI spokesmen now state that the FBI reports were erroneous, the autopsy sketch-----> the holes in the coat and shirt-----> and the testimony of at least two eyewitnesses-----> support the accuracy of the FBI description of the wound.

Excerpt, report of Glen Bennett - CE 2011

Excerpt, testimony Clint Hill

Commander <sup>J.J.</sup> Humes and Colonel <sup>Peira</sup> Finck, autopsy surgeons, have refused to comment on this crucial discrepancy.

We appeal to you to produce the photographs and x-rays taken during the autopsy performed on the President's body so that we may know by the evidence of our own eyes where the wound was situated, and thus whether there might have been more than one assassin.

We, the undersigned, intend to use all resources at our command to determine what really happened in Dallas on November 22-24, 1963. We serve notice that we intend to uncover the whole truth, wherever it may lead, regardless of personal cost or risk. We appeal to all witnesses and citizens who can throw light on those events to come forward and help us in the search for the full facts.
