Dear Tom,

Two hours is all you are going to get. In this time I will want to know why you want to talk to me when you consider me one who "collaborated with Garrison and other opportunists in a demagogic attack on the government's assassination policy." Why speak to me when you are convinced that I have said I will write a book and also have said I am through with the matter, when you "think you (I) will write and speak on the assassination in days to come?" Why speak to me when you think I "spread confusion." Why speak to me when you believe that there is only an "unfortunate possiblitiy you/^(I)believe your/^(my)formulations to be literally true."

You are not "loath to intrude" on my law practice as you suggest. You seem eager to do so, even though I have made it quite clear that I consider you determined not to accept any evidence no matter how much I present.

Look; be clear on the subject, I am not asking to talk to you, rather you are asking to talk to me for reasons you have made quite cloudy. Two hours, and at my office, and not with your friends. Advise.

Sincerely,
