

AP story on INQUEST, according to Leo Sauvage (Friday midnight, 10 June 1966)

Mainly summarizes Epstein's book--not too complete, but fairly accurate. "In rebuttal, an unidentified member of the Warren Commission counsel was quoted as saying that the ~~autopsy~~ autopsy report and photos were in the hands of the Secret Service but not the FBI...Rankin and Redlich quoted as saying that the so-called FBI report was evaluated and discarded.

The FBI declined comment.

Sauvage will send me a copy of the AP dispatch on loan.
It was used by the French News Agency.
