

23 November 1965

Dr Ralph Shaw
P O Box 5426
Honolulu, Hawaii 96822

Dear Dr Shaw,

Here are the additional citations to be inserted in the subject index, and a few minor corrections. Will it be possible for someone to make these additions and changes on the master copy of the manuscript? If that is not convenient, please let me know and I will send thermofax copies of the relevant pages incorporating the new citations and the corrections listed on the enclosed sheets.

I hope to send you the name index next. Meanwhile, please let me know if there is a telephone number in Honolulu where I can phone you in case of need.

If you do find it possible to have someone make the enclosed insertions and corrections, please be sure that the new citations are inserted in numerical sequence, and without repeating the "CE" each time. I do have a thermofax copy of the index, so please do not return the original.

I am afraid this letter is disjointed but that is the price of haste, and I don't want to delay by rewriting. With kind regards,

Yours sincerely,

Sylvia Meagher
