John Dolger of Dell (Delacorte) hates Schiller, is willing to give you what he knows, will cooperate. For example, pressed on hard-cover, saying Grossman eager do it - Grossman said, completely false. Offered do another LSD for Dell, "ambiguities" in NAL contract, would utilize his NAL text.

Check with Allan Ginzberg re LSD record - he was misinformed, misled, and abused.

Contact ex-editor New Am Library who edited LSD book - she will have a lot of stuff on Schiller (you can tell her and Dolger Ockene suggested) ie -
