

Mr. ROY W. KELLERMAN advised that he is the Assistant Special Agent in Charge of the White House Detail, United States Secret Service. He stated he has been an agent with that organization since December 19, 1941.

On November 22, 1963, he was the senior Secret Service agent assigned to President KENNEDY in Dallas, Texas.

He advised that Air Force Plane Number One arrived at Love Field, Dallas, Texas, on the morning of November 22, 1963. Upon departing from the plane, the President was met by Vice President JOHNSON.

Prior to getting into the White House Limousine which was waiting for the President, the President and the First Lady went to the fence separating the apron from the taxi area. He shook hands with many of the people there.

He then came to his limousine. Protocol dictates that the President be seated in the right rear of the vehicle. The President seated himself in this position and the First Lady sat next to him. Governor JOHN CONNALLY and his wife then entered the vehicle. Mrs. CONNALLY seated herself in the jump seat of the vehicle in front of Mrs. KENNEDY and the Governor was seated in the jump seat in front of the President.

Special Agent WILLIAM GREER of the United States Secret Service was the driver of the Presidential vehicle. Mr. KELLERMAN advised that he sat in the front of Governor CONNALLY, next to agent GREER.

He advised that the President's Car can be covered with a bullet proof bubble, however, it is not used on too many occasions. It was not used on this occasion.

On 11/27/63 at White House, W.D.C. File # 89-30
by SAs JAMES W. SIBERT and FRANCIS X. O'NEILL/dgr Date dictated 11/29/63

The President's seat can be adjusted to a height of approximately ten inches. The only person who can adjust this seat is the President himself. This seat was not elevated on November 22.

KELLERMAN advised that preceding the Presidential vehicle out of Love Field, there was what is known as a lead car. This car belonged to the Dallas City Police Department, in which were Special Agent WINSTON LAWSON, United States Secret Service who was in charge of the Advanced Security in Dallas for the Presidential visit. This car is equipped with a portable radio connected with the Presidential car. The vehicle also had contact with the Dallas City Police Department. In addition to the lead vehicle, there was a motor cycle escort in front of the lead vehicle, along side the lead vehicle and along side the Presidential car. In the rear of the Presidential car was another White House Limousine containing Secret Service Agents. These agents walked along side the Presidential vehicle until the vehicle left the area of the apron. The agents then got into their car and followed immediately in back of the President.

KELLERMAN went on to say that the vehicle passed through the center of town doing the normal speed which was adjusted by the number of people in the crowd and on the streets through which the Presidential vehicle passed. The vehicle went through the center of town on a street, which name KELLERMAN did not recall. Towards the end of town, the vehicle came to a sharp right turn in the street. Few people were on either side at this time. In a matter of a block, the road veered to the left. There were extremely few people on either side of the road at this point. The vehicle was still going at the normal speed which KELLERMAN estimated to be approximately 15 miles per hour. The Secret Service car following the Presidential vehicle was "tight close at hand".

The Presidential vehicle arrived at the Parkland Memorial Hospital in a matter of minutes. KELLERMAN stated he immediately jumped out of the vehicle and told hospital personnel to bring two stretchers. As the stretchers came out, KELLERMAN and GREER opened the back door of the Presidential car. Governor CONNALLY's eyes were open. He was told by KELLERMAN "Governor CONNALLY, everything is going to be all right". The Governor nodded his head in the affirmative. Three persons got into the vehicle at this time and lifted the Governor onto the first stretcher. They then got back in the Presidential car and with the assistance of KELLERMAN and GREER lifted the President from the lap of Mrs. KENNEDY and put him on the second stretcher. He described the President's head as lying partially on the lap of Mrs. KENNEDY and back against the rear cushion of the back seat. According to KELLERMAN, the President at this time was alive because he noticed that he was breathing. KELLERMAN advised he did not notice the extent of the injury to the President although he noticed a wound in the back of his head. The President's eyes were shut.

KELLERMAN advised the President was immediately taken into the Emergency Ward where several doctors began working with a feverish activity on Mr. KENNEDY to save his life. Several moments later, KELLERMAN stated the President died.

Mr. KELLERMAN said that from the time of this incident he has been going over in his mind the entire activity concerning the assassination of the President. The information that he has furnished to interviewing agents is factual and to the best of his knowledge is everything that occurred on November 22, 1963.
