Dear Mrs Meagher,

Am grateful to you for your kind 27 March together with all the enclosures. Occassionally, when frustrated, I will write a perfectly rude letter to someone. And when a reply is received to it (and a perfectly civil one at that!) then it is certainly a credit to the sender. Many thanks. I will approach the NY library again with a request for your INDEX.

Some of your enclosures did not make me very happy, but they were certainly edifying - and that was your point in sending them. I had put Garrison in a class with God, or the next class to it, and of course it is not usually pleasant for a person to hear what he does not want to hear. I assume you have read, for instance, Garrison's 1 Sept '67 introduction to the Canyon edition of OSWALD In NEW ORLEANS - and it is difficult for many readers of it (like me) not to be swayed by the idealism. But then your quarrel is not with this, but rather with the swashbuckling technique - examples of which do stand out in your enclosures. News is hard to come by in this corner of Florida (St Petersburg area), and I welcome your enclosures however disturbing they are.

Am sending copies of your letter & enclosures to fellow junior assassination expert Helen Hartmann of St Pete. Mrs Hartmann is in rather frequent contact with Mr Robert (Bob) Ruark of WLCY - the man who schedules & conducts the Open Mike program. As Weisberg & Jones have each been on the program on two or three occasions each during recent weeks or months, your appearance would provide an interesting contrast. Being anti-Ccommission without at the same time being pro-Garrison would certainly provide a new twist for the audience.

Again, thanks

Steffen Sorensen

I have a couple of Garrison TV transcripts. Both are out on loan now so I can't identify them properly, but: One is of the 1/2 hour NBC coast-to-coaster on, I think, 15 July 67. The other is more recent, out of Dallas. WFAA, I think, and a fairly long interview - possibly a half hour. If you should want either or both, drop a line & I will pass along copies to you.

Recently I wrote a letter to another "assassination type" but did not mail it. Maybe I recognized the futility. Enclosed are some pages from it. Totally useless? I can't ever know. So it is to solo.
