

6 May 1968

Dear Mr. Sorensen,

Since you indicate that you are in process of disengaging yourself from the subject(s) on which we have corresponded, I will keep this letter short (and it needs no reply). I would not like our correspondence to lapse without thanking you most warmly and sincerely—for the many materials you have been generous enough to send me, not the least being the microfilm of the Subject Index, and also for encouraging me to continue writing and working on the case. I am told that a short piece I did a few days after the murder of Martin Luther King will be in the June issue of TMO; and a longer piece, on the relations between the Texas authorities and the Warren Commission, in the July/August TMO. I have enjoyed and valued your letters, and your notes on the 26 volumes, and deeply appreciated your many friendly acts. All the best,

Most sincerely yours,
