Dear Mr Bob Ruark, WLCY:

Thank you for having had Mrs Sylvia Meagher as a guest on your program Monday night. For many listeners it must certainly have come as a shock to learn that a foremost critic of the Garrison investigation is at the same time a leading critic (complete destroyer, in fact) of the Warren Report.

It was good to hear you propose, at the end of the program, that Mrs Meagher might want to return for another show if enough people expressed a desire for it. And I was glad to hear Mrs Meagher's willingness. So here is my vote: Yes! And please multiply my vote by some 1,000 or so to take care of those who share my vote & my enthusiasm but don't, for an infinite number of possible reasons, sit down & write you a vote.

In the event of a return by Mrs Meagher, a particularly helpful thing to us all would be in your directing your initial questions to the matter of events which have come to pass during the past year. As St Pete has no news-paper, you could then be sure that practically your entire audience would be hearing things they never heard before - and I can't think of a better way than this to insure a continually increasing WLCY Open Mike audience.

Cordially,

Steffen Sorensen
