Dear Steffen,

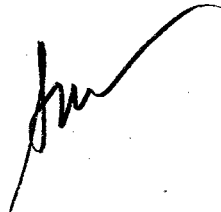

The jig is up, I have to admit that. It is obvious from your letter of 25 September 1968 (page 5, paragraph 1) that you have seen through my masquerade. I am chagrined that you have not been fooled at all by what I had thought was a pretty convincing performance as a critic of the WR and an enemy of The Establishment. But...

Fact is, I was approached with an irresistable offer by the C.I.A.<sup>1/</sup> early last year: if I would just insert into my book some anti-Garrison propaganda, I would receive \$358,976.21 (net after taxes on half a million dollars) in unmarked bills, and if I then continued to attack Him in letters to editors, radio broadcasts, etc., I would further receive a guarantee of my appointment as High Commissioner of Mars!

I might have resisted the Commissionership--but the cash? Not a chance! So I have been bribed, subverted, and corrupted, and you have penetrated the whole sordid secret. Yes, The Establishment will stop at nothing to crush Garrison, and I am helping this dirty work---fer cash. As a matter of fact, EVERYONE who turns against Him has been seduced by the C.I.A.'s unmarked lucre into a diabolical design of defamation, whether by thunderous vocality or by confidential whispers.

I just goofed, and I hope you won't be sore at me. I got confused, you see, and began to think that Garrison and Co. were even more evil and repulsive than Warren and Co., and I still think so. That being so, my honesty and integrity is intact---though heaven knows what's going on with Arnoni!

Unrepentently,
