DL 44-1639

WCF:vm

On December 5, 1963, the Houston Office advised that KENNETH LONGLEY, Student, San Houston State Teachers College, Huntsville, Texas, advised he met a Dr. HOMER WOOD and his son STERLING at a rifle range in west Dallas on November 16, 1963. He advised he and STERLING used booth #4, occupied at the time by a white male, 26 years of age, 5'9-10", slender build, sandy hair, wearing wire-framed spectacles, and yellow western shirt, snaps down the front. This individual had a rifle, possibly 7 mm. with scope, claimed to be four power. Rifle appeared not to have full stock, and was colored light brown. Gun spit fire and had strong recoil. Clip appeared to slant at the bottom. This person fired ten shots and departed. LONGLEY does not believe this individual is identical with LEE HARVEY OSWALD.

LONGLEY advised he was also accompanied by DAN and GERALD SPENCER, Edwards Circle, Dallas, Texas. LONGLEY advised that the SPENCERS have advised him they did not notice person in question.
