Dear Dick,

It was good to see you the other night and I appreciated seeing the DCA film, to say nothing of an excellent dinner.

I had a phone call today from Miss Beverly Brunson, from Kansas (see Photographic Whitewash, page 136, line 4), mainly about findings she believes she has made in the Altgens photograph and the Zapruder frames. Unfortunately, as you know, and as I told Miss Brunson, I am not specialized or authoritative in the film and photographic evidence. I could not evaluate her interpretations nor make any intelligent use of the material.

I therefore suggested that you were far better qualified to make use of her findings and offered to give you her telephone number, etc., so that you can reach her:

Please give my love to Vince when you see him, and to his lovely wife.

Yours faithfully,

Sylvia Meagher
