Miss Sylvia Meagher
302 West 12th Street
New York, New York

Dear Silvia:

Since sending you the October 15, 1967 edition #4 of my monograph, plus Exhibit 1, a number of new photos have turned up. As a result I brought Exhibit 1B up to date and I enclose it as well as an up to date copy of Exhibit 1.

Not yet listed on Exhibit 1B is the NBC video tape recently discovered by Harold Weisberg as having been received from NBC by the Library of Congress. It's available for viewing and consists of 12,200 feet of TV sound and film tape (122 reels of 1/2hr each) covering the period from 1:15 PM Dallas time Friday, November 22, 1963 to Monday evening November 25.

I have viewed and listened to only the first hour, but it alone has plenty of bombshells. Here are a few samples:

"NBC announcers state that a young man was arrested near the scene of the assassination and taken to the sheriff's office. The description fits Larry Florer. They say immediately following this that a 30-30 rifle was also confiscated at about the same time as the arrest near the place where the shots were fired. (Larry Florer was arrested near the spot where Montesana's film shows the mysterious rifle and the arrest was very near the same time as the film.)

Announcers in Ft. Worth state that the rifle found on the sixth floor was a British Model 303 and that the three shells found on the floor were British 303 shells.

Again Ft. Worth announcers state that a suspect connected with the assassination was arrested in Ft. Worth after a green car he was driving was tracked down. They say he was stopped at an intersection and that police had him down on the ground.

Several witnesses were interviewed in that first hour and all of them said the shots came from the knoll. These included Jean Hill, Bill Newman, and Holland."

Another recent discovery briefly listed in Exhibit 1B is a 1000 feet reel of film from WFAA, found at the Grinburg library (ABC) in New York. It is not possible to tell who took all of the footage, but the likely candidates are Ron Reiland, Malcolm Couch, A.J. L'Hoste and Tom Alyea. Time has not yet permitted more than a cursory one time run through this film, but it too has some very interesting scenes. Here are some of them:

"Extensive footage of the rifle on the sixth floor being lifted out of its hiding place. Lt. Day dusting a live cartridge for prints near the spot where the rifle was found. A clipboard being examined by a policeman near the same spot. Scenes at the Tippitt shooting location soon afterward. Something resembling a wanted poster can be seen lying on the dashboard of Tippitt's car. No detail can be seen.

A sequence taken in the afternoon on November 22 showing a rifle lying in the grass in Dealey Plaza with a telescopic sight lying beside it on the grass, detached.
(The meaning of this last scene has me completely baffled. I will try to find out about it by interviewing the cameraman.)

Scenes outside Texas Theatre apparently before the arrest. Several police cars can be seen arriving and police milling around outside. (It is known that WFAA cameraman Ron Reiland went into the Theatre before the arrest and took movies of the arrest from the stage.)"

You undoubtedly recognized the fact that Life published the Towner and Paschall photos which have been added to Exhibit 1B. Paschall's was, as indicated, a movie.

Several hundred new photos have recently been discovered in Dallas but are not listed.

At this point in time we have more rifles than we can really use. Here is a summary of rifle photos and information:

PHOTOS

1. Film of "Oswald's" rifle in hiding place and being lifted out on sixth floor Alyea, ABC
2. Film of "Oswald's" rifle in hiding place and being lifted out on sixth floor ABC - WFAA
3. Still photo of "Oswald's" rifle in hiding place Studebaker (National Archives)
4. Film of rifle without scope outside TSBD at 1:10PM Montesana 3 - DCA
5. Still photo of rifle in front of TSBD at 12:43 Willis 10
6. Film of rifle with scope detached on grass in Plaza at about 3:30 -4:00PM November 22 ABC - WFAA
7. Still photo of "Oswald's" rifle being lifted from hiding place Beers, Dallas Morning News
8. Still photos of Lt. Day carrying "Oswald's" rifle from doorway of TSBD to northeast corner of Houston and Elm Beers, Dallas Morning News
9. Same as 8 Wm Allen, Dallas Times Herald

STATEMENTS

- a) Weitzman and several others stating rifle found on sixth floor was a Mauser.
- b) NBC reporting rifle on sixth floor was a British 303.
- c) Capt. King's secretary stating that a rifle was found on the roof of TSBD. No cop had a rifle that day. They all had pump shotguns. (See Murray photos)
- d) NBC reports a 30-30 rifle was found at same time and near where Larry Florer was arrested (corner Houston & Elm)
- e) Several other rifles were seen or picked up in cars and other locations around Dallas.

Someone should do a "rifle" study, tying down the types seen in the various photos and comparing the several photos of "Oswald's" rifle to see if they match.

Finally, there are several photos of the paper bag outside the TSBD at 3PM being removed from the building. It is ridiculously long. There are many many photos taken inside the TSBD just as discoveries are being made, but absolutely none of the bag lying on the floor. This seems very strange, and the fact that it took two hours to get it out of the building, leads one to certain suspicions about it.
