^{**} James Murray used two cameras, one telefoto and one wide angle. The rolls as numbered alternate between the two cameras. Rolls 1,3 Camera 1; Rolls 2,4, etc. Camera 2. However, the individual photos do not alternate. Camera 2 was used much less frequently than 1. The photos on Rolls 2,4,6 and 8 therefore are interspersed with Rolls 1,3,5, & 7 on a more or less random basis. Only the times listed indicate the true sequence. The roll and photo numbers listed are those appearing on the actual films.
