

18 July 1965

Dear Mr. Stamm,

Thanks for sending me your essay "The Horn of Truth." Both Isabel and I have read it and we think it is an excellent analysis. I think that there is a problem in dealing with the rifle tests in the context of Delgado's over-all testimony; perhaps it could be a separate essay, or sub-essay, at the end of the Delgado material. Isabel suggests that you might wish to incorporate an analysis of the ballistics tests using goats, gelatin, etc., with the material on the rifle tests.

But these are minor questions of organization, and we both send our congratulations on your balanced and penetrating study.

Nothing much is new since our "seminar" on the California material. Do keep in touch. Best regards to you and Mrs. Stamm,

Sincerely,
