Dear Sylvia,

We didn't go to Phila. May lost her voice, & had a muscle spasm in the hip. We're both recovering. Called Vince; missed him; got his wife; put off visit two weeks.

Am slowly reading *The K Conspiracy*.

You must see "Greetings". A hilarious movie in the "hippie" vogue ingeniously combining sexual themes with themes from the K assassination. It's at the East 34th St house not too far from where you work.

Yours
