Dear Sylvia

Our friend Garrison has done it again. Really, it's Garrison /  
Salantia. A fine pair. On this because reporter from  
Rosenbaum is of a piece with the others.

Alerted by my daughter I had the voice when your clipping  
arrived and was about to call your attention to it. Wecht,  
it would appear, has moved far off center. Have you been  
able to clarify his position in the autopsy photography and  
X-rays?

And what about you? Have you caught up in your  
work? Is your health restored?

May sends her best.

Tom
