Re: Robert F. Kennedy

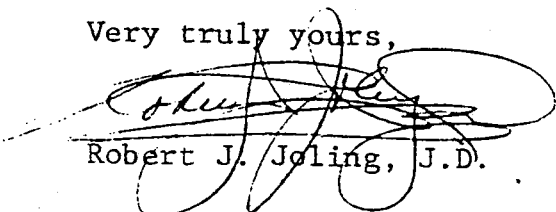

Dear Mr. Cowdin:

Sometime ago, I wrote to you requesting information on the Robert F. Kennedy assassination particularly as it related to the Police Commission responsibilities and the documentation that might be within your possession and which now ought to be released to the public, according to past agreements and statements made in this instance.

Since last I wrote to you, I have not had the courtesy of a reply or receiving such information. At this time I reiterate my request for cooperation from the Los Angeles Police Department and those who may have within their possession the documentation which we wish to review.

Any assistance that you are now willing to give to us would be accepted. I trust that we may have early reply.

Very truly yours,

  
Robert J. Joling, J.D.
