Dear Mrs. Meagher,

My sincerest thanks for doing something that I should have done! I read your comments regarding the LeBoeuf spoof as was perpetrated by Brackman and Levine. Until I read this "thing?" I had some confidence in Ramparts....now I do not know. We are dealing with matters upon which our future as free people may well depend. I must admit that one section of the spoof intriuged me as it fit right into my own line of research which goes into the gambling orbit of Las Vegas. As I mentioned to you in a previous letter I know little more than I knew on the day of the assassination and for my own personal reasons I have sat back looking for a weak spot. Everything that I have done depends on my belief that the story told in the Warren Commission Report was incorrect. So like a television script writer I spent time on "motivation" accepting the existance of another version. It has paid off as I am presently in the process of negotiating with a Warren Commission witness to get a crack at what we both know is a weak link in the case. Unfortunately and unlike you and I the person involved wants to be paid for the risks involved. This is being arranged. In addition all my material related to this "break" is now in safe hands in Europe where all the financial negotiations are going to be handled. It is a tribute to our free society that this has to be the format of operations. Shades of Orwell and the Establishment!

During the week I heard a radio debate between Louis Nizer, Suavage, Roberts and my old friend Harold Weisberg on the Martha Deane program. Nizer had the audacity to accuse Weisberg and all who investigate the assassination as anti American and besmerchers of the United States. This highly over rated "shyster" is going to get the surprise of his life as there is a very good reason for his taking his particular stand. He operates on orders of the Establishment for reasons which I will expose. One of his clients was associated with a group who allowed the narcotics syndicate into their operations during the period when it was thought that Castro would grant gambling and Red Chinese narcotics smuggling rights to the same group that finally moved into the Bahamas. The base of operations was Las Vegas which makes the LeBoeuf spoof interesting! The whole story is so way out that what I have just written almost seems unrelated....but it is part of the key to the solution.

Would still like to talk to you if you are still interested. I had a Japanese partner and film producer going into Hanoi and Peking for some film work but have had all contacts cut by someone who does not want a free exchange of ideas on both sides. This is why I have gotten all my material into safe hands in Europe. In fact I am surprised that you were even able to get the Esquire series off the ground???? Will call you during the week to see if you are still interested in a chat.

Cordially,

Jules Stuss
