Dear Mrs. Meagher,

It was indeed a distinct pleasure in being able to talk to you over the phone the other evening. You certainly transmit a high degree of dedication and apparently you are a fine and sincere person. For reasons which I probably will never have the opportunity to explain our meeting probably would provide us with additional handicaps which we both do not need in our work.

As you may recall I mentioned during our telephone conversation that I was calling from a public phone booth as I only use my private phone for matters which are in no way related to the direction that my enquiry moves.

Unfortunately the day that Orwell predicted may very well have arrived. I would strongly suggest that you avoid using your phone in discussing matters which you consider confidential or important.

In view of the fact that I originally made the contact requesting a meeting I must apologize for being unable to accept your more than kind offer to meet with me.

As I may have mentioned my knowledge of this case began long before the "happening" in Dallas. There is no middle ground in this matter. We either have a conspiracy or we do not! Most of the researchers become completely immersed in technicalities and when those technicalities indicate serious discrepancies the search for technical faults is accelerated. MOTIVATION or why did it happen the way most of us feel it did happen. When you get into this area and come up with some of the conclusions which are inescapable and we run into some terribly frightening things. Matters which many honest and uncorrupted men might well consider too dangerous to our international image to allow disclosure. They garrote the truth in order that the truth live....by their definition. The best of luck in your work.

Apologetically,

Jules Striso
