Dear Sylvia,

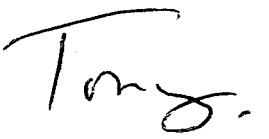

I heard after talking with you from 'New York'. Many thanks for making the contact - I shall hopefully write a piece for them for April.

Can you help with a zerox, or just a cite for the actual JFK death certificate signed by (?) Burkely. Arch, who is helping me in Mary's absence, cannot find it. Thought you might be able to go straight to it.

In your book page 202, you mention a Kantor note about 'NC preacher who tipped them off about the mail order purchase'. Did it ever get further than that, or did Kantor ever interpret what he thought he meant. North Carolina to me means only the call Oswald allegedly tried and failed to place to North Carolina. Marchetti says NC (Nags Head) was the site of a Naval Intelligence programme to send young men into communist countries posing as US drop-outs. Hum.....

Finally, can you send me Harold Wessberg's address? I want to get all his Whitewash books, if he is the man to ask for them.

Luv,

Anthony Summers

P.S. Liked your response to the AIB questionnaire.
