Feb 13 1979

Dear Sylvia,

Many thanks for death certificate etc. This is mainly to return it promptly. In fact (not to sound ungracious) I have the certificate itself in a book here. What I need is the cite -for my source section at the back of my book - and it sounds as though you don't have that. Shall I just say 'Secret Service archives'? As well as asking you I will ask H Weisberg when I order his books.

I have of cours read most of H Weisberg from time to time. It is just that I must get them for myself.

A last point, and the most important. I have been very grateful for your ready and efficient help, and look to continue that relationship when I get to your neck of the woods in a few weeks. When I come depends a little on your answer to this question. My time here has been highly unsatisfactory in that - as you know - I came at Mary's urging to be near her and her documents. She has been so sick that I've seen her only once (for ten minutes) since Christmas. Very frustrating to have to live in a hellhole like Dallas for no reason at all! I have recently had consultative help from Arch Kimbrough, who is very knowledgable and shared the cost of all Mary's documents. Unfortunately, though, the docs are with Mary and even Arch cannot get to them in the present situation. As a result, although things are going relatively well with the book, I am short on various things - like, for example - papers on the witnesses to the Mexico City visit. I think these are mostly CIA. Do you have such things? Or do you know somebody accessible in the east coast

area who has?

I ask this with care, I hope. I am not about to lumber anybody with days and days of Summers - except perhaps a rather intensive series of meetings with yourself if you permit. (After you've read the Ms.)

These worries apart, I'm on target. Should arrive either last week of February or early March.

Cheers,

A handwritten signature in cursive script that reads "Tony".
