Sylvia Meagher
302 W. 12th St.
New York City

Dear Miss Meagher

Thank you for your letter of October 4th, I agree with your conclusion that the time lapse in finding the rifle indicates that the police were preoccupied elsewhere.

Perhaps you can help me with a Chapter I am now working on. I am trying to ascertain the number of witnesses who indicated a different source of the shots, or two assassins, in their FBI interviews but who were never called. For example, Mrs. Eric Walther. What I am trying to determine is the exhaustivity of the investigation.

This chapter also deals with the stretcher bullet and the Tague bullet. Any insights you can give me on these will be appreciated.

Thank you very much for inviting me over, I found it most enjoyable and was sorry I had to leave but I had a previous engagement.

Regards,
