

Since thinking about this incident, and in view of the assassination of President KENNEDY with a rifle, she has wondered if this man with the rifle was OSWALD. She saw a photograph of OSWALD in the newspaper and stated that a side view of OSWALD does not look like this person. The full face photograph, however, she believes does resemble him. She was shown a photograph of RUBY, but she advised that RUBY was definitely not identical with any of the other persons. She stated the man by the car that she talked to was about 40 years of age, dark complexion, medium height and weight. She could not describe this person any further but believes she would know him if she were to see him again. She could not give any description of the other man by the car at all. The man with the rifle was a young white male of medium height and slender build.

Mrs. PENN stated that the field where the man was shooting has been plowed since the incident, and she did not feel there was any possibility that any of the shells could be located. She advised that she would return to the field where the incident took place and look carefully for any of the shells and would advise the results of this search.
