Dear Sylvia,

Long time no see -- but I hear wonderful things: your book will be published in the Fall. Marvelous! I guess yours and mine will be the third round of the fight. I'm anxious that you have access to certain things I discovered and have to keep secret until July 1st. They concern 399, the cartridge cases, and the firing point in the TSBD. So at some point in the Spring I want to turn my manuscript over to you. The greatest benefit of this, of course, would be that you could straighten me out if I made any howlers. But I'm anxious too, as I say, that you get access to my new evidence early enough so that, if you care too, it can be included (and perhaps more work done on it), in your book. I hope our round will be the knockout round.

I made copies of these transcripts for which I thank you, and am returning the original. I made a copy for Vince too. I sure would like to press Wecht on some of these points. If he comes to NY how about a joint meeting? Best of luck, Sylvia, and I'm so tickled your book will be out soon. It should have an enormous impact.

Best regards,

Tim
