

Debate Turk vs Allen Specter

Thurs 8 pm/9:30 12/5/68

(Via Phone to H Feldman)

Notes

Stewart Dalzell U of Pa Law School
wrote footnote to history 200 law students
election & Shyren controversy re JFK assassination
essays adversary procedure

Specter was asst counsel WA to uncover
how K killed single bullet
them AS center is key stone

Turk SSD last yr. partner of
interview industry He co directed
Life injury 1966 w. WR

Prof Paul Mishkin is moderator
- is avid student of the
Lesson.

Own & Know 26 Volumes

Pm own 26 vols read some
(not even 1/2)

Remains a few details as setting for debate
12:30 as rode past TSB
seriously injured WC later found
LHO fired for 6 ft TSB
total 3 shots all for that number all
by LHO

Submitted just deal controversy. Single
most central issue, tonight, is
single bullet theory. Crucial because
reference to gun of LHO only person
single bullet may not be essential to
"assassination" WC says "not essential"

But only other hypothesis consistent
to lone assassin WC suggests that
rejects 2 film (describes)
WC had cc of cc " " Was prime

basis for reconstruction Trooper position,
trick of fate, these few moments were critical
Wavy 210 emerging 225 has been
hit & is reacting WC concludes
1st shot that hit 210-225

Gov C per 2 film No reaction like
JFK at 225 Full reaction
only 13 frames later

2.3 seconds needed but only 1.5
seconds between JFK = Gov C reaction 5 hit or
hits

one other hypothesis - AS suggested just

before meeting - ① 1st shot hit JFK also hit Gov C

② traces below neck stops under
no bone lacerated left thigh ↓
entered Gov C shattered rib
lacerated wrist thigh etc.

③ hit between 210-225 & completed
course in less than one foot
eg Gov C reaction very delayed

④ CE 399 is the guilty bullet

Nearly intact 6.5 mm only slightly flattened
Drill area lead missing from base

Found on a stretcher Found for

LHO rifle As we said 3 shots

2 hits = head shot fragmented

CE 399 was guilty

Seems very improbable

But "does happen

to key question is, is it

possible happened

this way

Turb has advanced a different
reconstruction

Specter

we put all evid before public eg Hannes
After autopsy he asked re CE 399

Based only on Gregory report Hannes says this
not possible. Based only on flakes of metal

Gregory later postmortem shows so rules out
Hannes' reason. That is part of large
picture. Taken as whole evidence
quite compelling for SBT

Essential evidence 4 SBT

Because x limited, agreed limit debate solely to validity or non-validity of single-bullet theory

Will hold speakers and questions to that. ... context sketches of 2 film He + AS show photo copies were able to compare sketches to slides

Speaker = 15 Time = 25
" + 45 " + 5
open to ques 1/2 hr

Speaker believe single-b is the most probable but not indispensable pre-requisite WK says "persuasive evidence" but whether or not so, all states 6 ft + LHO sole cause

Just temporal via frames believe + time 1/18 sec. Entirely consistent that JFK shot earlier at 186 so any X

Seq bullet from C That was original thesis FBI + SS I think single-bullet is correct.

Unwilling to put anything on the record as investigation being conducted

Its not much contradictory evidence which pts out veracity WC = ... i t . . . L T .
