Dear Sylvia,

Can you prove that Mark Lane is lying? If not, can you convincingly argue it in a few paragraphs?

I am certain that he is going to print the same boast in a future issue of the Los Angeles FREE PRESS, as he is writing for them rather regularly now -- and he was up on the air in California, too, before Bobby Kennedy's body was cold making all the same claims.

To me, this makes Garrison's heretofore obscure motives quite obvious. He's going to try for a fascist take-over.

Art Runkin of the Freep is not a bad guy, if we can just get through to him. And I would be happy to write a rebuttal of the Mark Lane piece, which can go in OPEN CITY if Art won't take it.

Also, may I have your explicit permission to quote from your letters when material is not marked confidential?

Also, I have just finished an article on Garrison for AVANT GARDE and would now like to do one on what an unscrupulous s.o.b. Mark Lane is turning out to be for some other publication. And raw materials you or others can send me would be most welcome.

I will be writing many articles on the Garrison thing from here on out, by the way, from short ones for the underground press for free to long ones I'll be trying to sell. If you know anyone from the EAST VILLAGE OTHER ~~XX~~ or any similar publication who would like some short-shorts on the "probe," please let me know.

Also, if you have ~~XXXXXX~~ available a copy machine I'll shoot the carbons of anything I write by you so you can make a set for background information, if you want.

Don't worry about being busy. I understand. Drop a note by whenever you get a chance. I'll send you something whenever I have it.

Let justice be done until the DA falls,
