

is onal legislation requiring it to do so, never been required by Bobby Kennedy to register its members?

Why were innocent citizens, registering their right of protest by carrying picket signs, thrown into jail and held for four days?

Is there to be an investigation into the State Department, the CIA and the Executive branch of the government in this case?

Why did the State Department renew Oswald's passport and pay his way back to the country after he had renounced his American citizenship?

Why did they, a year later, grant him another passport to return to the Soviet Union? Who is it in the State Department that accommodates known and admitted Communists but plots the firing of a loyal American such as Otapka at the State Department.

Who was the mastermind behind Oswald who furnished him the exact route of the President six weeks before it was published?

Where was the source of his money?

With Chief Justice Earl Warren heading up a "commission" to supposedly investigate the assassination of President Kennedy, will they now turn the full force of government toward the investigation of the murder of Lee Harvey Oswald?

On December 2, 1963 the Dallas News made public the news that the FBI reports will not be made public, as President Lyndon Johnson promised on November 26, 1963.

Do you believe that an honest full and impartial report of the

murder of John Kennedy and Lee Harvey Oswald will ever be made public?

Does the death of John Kennedy make any less obnoxious the Communist aiding legislation proposed by the Kennedy Administration now than when he was its mouthpiece?

**Motives**

As one reviews the circumstances and activities of Jack Rubenstein, alias Jack Ruby, it is impossible to dismiss the Kennedy assassination as the unrelated acts of two psychotics. Dan Smoot in a recent report has summed it up succinctly... "circumstances gave rise to the presumption that Jack Rubenstein and Oswald were involved together, with others unknown, in a plot to assassinate President Kennedy, and that Rubenstein murdered Oswald to silence him. Indications now are that this presumption may never be proved."

Perhaps only a totally new administration will ever be able to give the people the truth of the Oswald murder. Only an honest investigation of the State Department will probably ever disclose the murder of President Diem and his brother. The betrayal of the China mainland into the Soviet slave labor dynasty, the unseating of Sigmund Ree and every other anti-Communist that has been an obstacle to Communism's dream of world domination.

There is nothing that Communism fear more than an informed American. Why is the American press afraid to expose the full truth of the Kennedy and Oswald assassinations?
