Dear Mr. Rankin:

Reference is made to your letter dated July 3, 1964, concerning a communication written by Mrs. Rita McCarty and my letter dated July 14, 1964.

Enclosed are two copies of a memorandum dated July 14, 1964, Dallas, Texas, captioned "Lee Harvey Oswald." The memorandum contains results of investigation conducted by our Dallas Office to locate photographs of a bone specimen. #1269

The photographs in question were obtained from Jack C. Harper, M.D. They are two thirty-five millimeter Kodachrome transparencies bearing numbers thirteen and twenty, which are enclosed. Also enclosed is one small metal canister which contains a black and white thirty-five millimeter film strip negative revealing various exposures of the same bone specimen. This film strip was furnished by Mr. M. Wayne Bolleter, Chief Medical Photographer, Methodist Hospital of Dallas. - Mrs. McCarty

The FBI Laboratory has reproduced for your assistance two enlarged copies each of the thirty-five millimeter color transparencies. They have also reproduced two enlarged copies each of the black and white negatives. In this respect, the black and white negatives which were reproduced are outlined in red on the film strip.
