Mrs. Sylvia Meagher
302 West 12th Street
New York, New York 10014

Dear Sylvia:

Yes, I have been thinking about the expiration of the five-year moratorium, and I would be quite willing to submit a request to Burke Marshall.

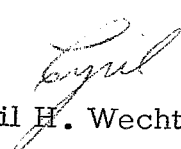

I would like to have the benefit of suggestions from you and Tink concerning the form and substance of the report. Should anybody else be included in the "investigative team"?

I am not optimistic about receiving permission, but obviously, the request must be made promptly and properly.

I shall look forward to hearing from both you and Tink.

With kindest regards to both of you.

Sincerely,

Cyril H. Wecht, M.D., J.D.

P.S. Thank you for the article from The Nation. Pete Flaherty is a friend of mine, and generally, I would agree with the tone and thrust of the article.
