

2 October 1974

Dr. Cyril H. Wecht
Allegheny County Coroner
542 Fourth Avenue
Pittsburgh 15219

Dear Cyril,

I am very grateful to you for the copies of your article and the attachments. I am sending one set immediately to Allard Lowenstein, whom I had alerted to expect this material.

I have read the article with keen interest, great admiration, and considerable personal satisfaction. I agree with Tink that it is indeed a blockbuster. It places the crown on the small mountain of evidence that the undated autopsy report published by the Warren Commission is not the autopsy report that was written on 11/23-24/63 but an "adjusted" and falsified document tailored to the single-missile, lone-assassin hypothesis.

The new information about the neutron activation analysis is also of the first rank of importance. Is it not astonishing, to say the least, that the Warren Commission concealed the very fact that the NAA was carried out?

Incidentally, the New York Times has a copy of your article. Jones Harris happened to call me the other night, and he knew about the article before I even mentioned it, through his contacts with people on the Times.

The only thing that gives me pause is that your article should have a much wider exposure than it can get in Modern Medicine. There must be some way to jolt the newsmedia into paying attention. You have made another major contribution to the case, in this article, and one that has special meaning for me since I have suspected from the beginning that the official autopsy report was a fraud to which its manipulators did not have the courage to put a date.

All the best,

Sincerely,

Sylvia Meagher
