Dr Maier Tuchler
c/o American Academy
of Forensic Sciences
Chicago, Illinois

Dear Dr Tuchler,

I have read with particular interest a press account of your comments at the 18th annual meeting of the Academy on the Warren Report. I have been doing research on the Report for more than a year and my subject index to the 26 volumes of Hearings and Exhibits is to be published within the next month. I am also writing a comparative analysis of the discrepancies between the Report and the corresponding material in the Hearings and Exhibits.

Would it be possible for me to obtain a copy of your paper? I should like very much to read it, for my personal information, with the understanding that I would not quote you or make any other unauthorized use of your paper. I should be most grateful if you find it possible to send me any material on this subject.

Yours sincerely,

Sylvia Meagher
