

4 June 1966

Dr. Cyril Wecht
1417 Frick Building
Pittsburgh, Pa. 15219

Dear Dr. Wecht,

Thanks very much for your kind words about my review of the Hartogs book, I really appreciate them.

I tried to transcribe your taped remarks on the Long John program, for the information of the other researchers on the Warren Report. Perhaps you would like to have the enclosed copy. If there are serious errors, please let me know.

I am sending copies to the other "Warrenologists" purely for their own information. There will be no publication or attribution, of course, but I think that your criticisms of the autopsy are of particular importance to the lay researcher.

Again, thanks, and if you have a moment, I should like very much to know your opinion of Edward Jay Epstein's book Inquest when you have read it—in particular, your reaction to the new information Epstein provides on the medical and autopsy findings.

With kindest regards,

Yours sincerely,

Sylvia Meagher

P.S. As I hope I mentioned, there may be a story in the next NEWSWEEK, and in LOOK for June 25th, as well as in the July issue of THE MINORITY OF ONE. RAMPARTS is putting out a special issue on the Warren Report, about end of June, and will probably carry stories on the WR regularly in subsequent issues. I think the RAMPARTS special issue will carry a chapter on the Tippit killing from my unpublished manuscript. If you are in touch with Jay Schwartz or the other panelists at the Annual Meeting of the Academy, you may wish to mention these developments to them.
