Dr. Cyril H. Wecht
1417 Frick Building
Pittsburgh, Pa. 15219

Dear Dr. Wecht,

Many thanks for sending me the reprint of your paper and the clipping about Dr. Helpern. I have sent for a copy of the Journal of Forensic Sciences (to Callahan & Co. at Mundelein, Illinois, which I hope is the correct address—I obtained it from the New York Academy of Medicine library). I found your paper outspoken and illuminating. There are several comments in it about which I have reservations (for example, the statement that all the shots came from behind the car and all the bullets entered from the back); perhaps we will have an opportunity to talk about those points when you next come to New York.

I was very interested in the statement on page 313, end of paragraph 2, about the rumor that the autopsy photographs had been destroyed. Can you indicate the source of that suggestion?

With kindest regards,

Yours sincerely,

Sylvia Meagher
