Dear Miss Meagher:

Thank you for your letter of 3 November 1966. I am happy to learn that you and several of your friends felt that I had made a few good points on the Long John Nebel Show. Certainly, there are many things that must be hammered into the American people regarding the inadequacies and inconsistencies of the Warren Commission Report.

I should very much like to review the autopsy photographs and x-rays at the National Archives. Please feel free in referring to me when you write to the Kennedy family in order to obtain permission to review these materials. I have asked my secretary to list a couple of my titles under my signature in the event that you feel it necessary to refer to these in your "petition".

In any event, I should be anxious to learn what happens to your request. As you have indicated, the numerous articles are confusing vis-a-vis the matter of who can review these films and when. I should hate to have to wait five years to look at these photos and x-rays (assuming that permission would be granted then!).

I plan to come to New York on Wednesday, December 7 and hopefully stay through the weekend. Perhaps it might be possible to meet

with you and some of your associates sometime during that period.

With kind regards,

Sincerely,
