FORENSIC PATHOLOGY  
LEGAL MEDICINE

December 19, 1966

Miss Sylvia Meagher  
302 West 12th Street  
New York, New York 10014

Dear Sylvia:

Just a note to tell you that I enjoyed meeting with you last week in New York. I was happy to have had the opportunity to talk with Mr. Kearn at LIFE Magazine and Mr. Goodall of THE REPORTER.

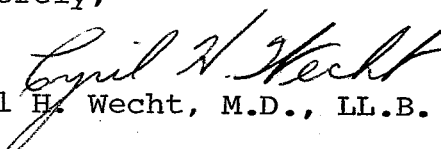

I think that Congressman Kupferman is a sincere and intelligent individual, and he further has the legal education and background to enable him to push the inquiry in an official manner at the National Archives and if necessary, in Congress.

Please let me know if there are any new and significant developments in the case.

Ruby's malignancy certainly took a long time in being diagnosed despite his 24-hour-a-day supervision and guarding. I would only hope that the appropriate person could have an opportunity to talk with him privately, convince him of the fatal and irreversible nature of his disease process, and attempt to obtain some honest comments from him. Unfortunately, if he is a psychopath - and I believe that he most likely is - then it probably would not be possible to do so.

With kindest regards and best wishes for a Happy Holiday Season,

Sincerely,

  
Cyril H. Wecht, M.D., LL.B.
