Dear Sylvia:

Just a note to acknowledge receipt of your letter of 14 February. You might be interested to know that I am leaving tomorrow morning to attend the Annual Meeting of the American Academy of Forensic Sciences in Hawaii. It will be exactly one year since I presented my paper before this same group in Chicago in 1966. I am fascinated when I think of how much has developed regarding the Warren Commission Report since that time!

I was disappointed to learn that LIFE Magazine has apparently lost interest or dropped their proposed project for whatever reason. Too bad - an outfit of their size could have made a big difference in pushing for a re-investigation. I must confess that I was a little surprised and disappointed that I never heard from Ed Kern or anyone else at LIFE Magazine following our session in early December 1966.

I shall be watching anxiously to see what happens with Kupferman's continuing efforts to examine the autopsy photos and x-rays. I am not optimistic about his success in this quest, although he has my complete sympathy and admiration for his efforts.

I hope that I shall be able to get to New York in the early Spring, and I hope that we can get together at that time.

With kindest regards,

Sincerely,

*Cyril H. Wecht /pat*
