FORENSIC PATHOLOGY
LEGAL MEDICINE

April 21, 1967

Miss Sylvia Meagher
302 West 12th Street
New York, New York 10014

Dear Sylvia:

Just a note to thank you for having sent me the various news releases from Ted Kupferman's office. Apparently, even a Congressman finds it impossible to budge the powers-that-be in this matter.

Incidentally, I received a letter from a pathologist friend in Illinois who tells me that the anesthesiologist at his hospital was told at a recent meeting by one of the anesthesiologists at the Parkland Memorial Hospital that he (the Parkland Hospital anesthesiologist) had definitely felt a bullet hole in the front of President Kennedy's head at the time that he was involved in the emergency room treatment. It is interesting information, and I wonder what can be done with it.

Are there any new significant developments? I guess that many people are anxiously awaiting the outcome of the Garrison investigation in New Orleans.

I hope that we shall have a chance to meet and talk in New York soon.

With kindest regards,

Sincerely,

Cyril H. Wecht, M.D., LL.B.
