Dear Sylvia:

Just a note to acknowledge your letter of 14 September 1967 and to thank you for your kind comments regarding the brief Appendix that I wrote on the autopsy report for Tink's book. I should have liked to have covered the area more completely, but time ran out on me. Of course, it is too bad that CBS refused to give me a copy of my complete interview with Dan Rather; that would have given us just about all my thoughts on the medical aspects of the case. Perhaps I might get it by writing again, although my recent conversation with Lister won't help!

I am pleased and not at all surprised to learn about the public's response to the CBS Series. It really is frightening to learn how powerful some of the vested interests in the United States are - they can just about do what they wish and totally ignore the public's reaction as long as there are no economic sanctions involved or threatened.

I shall be looking forward to receiving a copy of your book which I know will be excellent. In the meantime, perhaps I shall have a chance to call you if I get to New York during the next few weeks.

With kindest personal regards.

Sincerely,

  
Cyril H. Wecht, M.D., LL.B.
