Dear Sylvia:

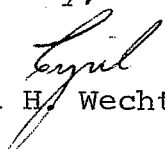

Thank you for your kind note of 27 July 1969. I hope that your stay in Boston was pleasant and productive.

I agree with your comments of the recent Kennedy drama. Among several other important items, an autopsy certainly should have been done. I think that his position on the national scene has been seriously and perhaps permanently compromised. Incidentally, were the Rennar materials enclosed with the letter that was sent to you in New York? If not, we must still have them around in the office.

I hope that we can get together sometime soon in New York.

With kindest personal regards.

Sincerely,

  
Cyril H. Wecht, M.D., J.D.
