

Yes, I think so.

As shown in New York, did the TV show have an exchange between Jake the Fake and me on the Tippit bullets, with Bishop trying to prevent my response and me getting it in later?

They have now sold the show to 13 stations. *Good*

With the effect of the show what you have had reflected to you and I have seen here, it carried a lot of good information to a lot of people who otherwise would have known nothing. *Yes - very useful.*

Have you any idea what LIFE is going to say next week?

Bill told me ~~my letter~~ to the SR was printed. I haven't seen it, but a friend who has the issue in Washington says it is not in. I have difficulty imagining the printing of the letter I sent. Do they have different editions for the two coasts, is Bill wrong, or what?

*You've seen it
by now -
