

4/25 If Maggie is still in NYC, I have answered her letter of 4/18 which arrived only this a.m. There is no document number of anything like that on the document I gave her simply because it is of internal origin. It did not come from the FBI, SS, Dallas Police, etc., hence it can have no such designation. It is of the staff papers which were not so arranged. It is simply a staff memom on the indicated subject... Good to speak to you last night...I've finished my chapter on Manchester's appendix which is not an appendix and it is a scream. Most of his "unpublished" sources are published. I cited them. His "unpublished" charts were published. His copies are incomplete. And he takes it all so seriously, actually believes it. His is really insane. His ego is enough to qualify him for the boobyhatch...Press on Manchester book in England not favorable...Joesten had a publisher for another book whh, I understand, backed out, destroyed the type, and is now having it done in Holland. That should make a success of it in Engalnd. I apparently is wild enough to go to the fringe here. I hope it is not irresponsible....When you speak to Bob Okene please ask him for me if he can learn the extent of the Roberts promotion. It is without relationship to what it can return the publisher and I suspect is subsidized. I'd like to have a list of his PR. Best
