

hist of Jews of America
I will be publishin^g this in the near future. The Xerox machine was broken, so I got this and another (sent Maggie) free. Thought you might use it until that book is out. I have the Federal Register from which this was Xeroxed that I do not now need. You or Maggie can have it if you'd like it. A note from Dave Lifton says what Bill has told him of the contents of PW and what he hears of the Bond pictures rekindles his interest in camp~~lage~~. Elmer Gertz is going to do a Ruby-case book. Willis was in NYC to see LIFE. Thanks for calling Billings. I asked that he get a detailed statement from Willis on his wife's observation of the back snap of the head. I also wrote Mrs. W. and asked for it. From the reactions of Mrs. Lovelady and Willis, I can only wish that II gets good distribution in Dallas, for it has already elicited worthwhile response from witnesses and observers.
