

Your CBS letter is really excellent. Doubt if they'll answer. I've had and expect none, esp. with M honeymooning with the President 's Kitchen.

If Ray ever gives you a copy of that corporal case, I'd like very much to have it. If you can get citation, I'll get us copies from the Library of Congress. I want to use it and refer back to exactly that language in WHITEWASH.

I hate to take time out for anything, but these letters are essential for the establishment of a record. I've got 130 pages of the appendix of the next book already pasted up when I should be spending that time promoting and distributing PW....It does not show in the NO papers, but the subcensuring of ~~David~~ Dalzell is another CIA-FBI link. I showed Jim that an FBI agent attended <sup>reinds</sup> of Democratic Cuba meetings. How these people abused the dictionary! How I wish my own NO book were out. I'd love to know what persuaded Dell to back out.

Best, H
