

7/28/67

Dear Sylvia,

Excellent letter 7/23 to Scheffler.

He hasn't gotten around to answering the letter I wrote Midgley, nor has Midgley himself. I raised a similar question, among others, in a different vein.

My original letter demanding fairness-doctrine time was rejected by the general counsel, who has not responded to my reply.

Some time in the future I'll be doing something about such finkery, so do not lose the ballistics data. I've little time also, but I've done a little on the AO and NBC (I think they did more harm).

Your last apr. is particularly well put.

It looks as though a few important things are happening, but we have to wait and see. I hope those that seem close will not be too long becoming public. You might expect one from Texas and another from Calif.

Your information on Lane doing a New Orleans book appears to be accurate. He told a book salesman I met this. Please keep me posted on anything you hear, for he is not about to do the requisite work.

Best,
