

9/10/69

Dear Sylvia,

Rummaging across the accumulation on the top of my desk looking for something else I found an old note I made to remind me to get something for the future, for my book TIGER TO RIDE.

Ordinarily I would ask the UN press office for it but I have forgotten with whom I was in touch there.

If it present no great trouble to you, would you ask the proper person, please, to send me a copy of U Thant's proposal to Khrushchev and Kennedy during the Cuba Missile Crisis and the replies of each? There is no hurry, for I've other writing to do before I will feel free to return to that book.

Things have been quiet. I've finished the too-hasty reading and correcting of the addition to COUP D'ETAT dealing with Ray/King and my wife is typing it. Now I plan some notes to update the first part.

A note from Gary Schoener informs me that Thompson has loaned Lifton and Newcomb copies of some of his films, but with strict injunctions to let no one else see them. He couldn't have picked two less dependable, less likely to really see what they say they see.

IRS is making a really careful audit of our books. The agent was here for I think the fourth time today and hasn't finished. But two trips ago he expected to finish that day. However, I have no reason to believe there is anything sinister. And my books are okay. My wife is very careful. Where I do not have receipts or accounting for everything, as when I am on a trip and just do not have time, he is quite surprised at how low my expenses are. He doesn't know you have to have money to spend it!

Best regards,
