

25 October 1969

Dear Harold and Paul,

In reading the Frazier transcript I was struck by his description of the C2766 rifle, top of page 123. The weapon as he described it is quite inconsistent with the weapon described by Seymour Weitzman in 7H 109 -- dark oak brown wood and blue metal, according to Weitzman. That just does not jibe with Frazier's description.

Any suggestions?

Regards,

Sylvia Neaghar
